VOLUME CVIII.--NO. 191. ALEXANDRIA, VA., MONDAY EVENING, AUGUST 12, 1907. PRICE 2 CENTS.

A Woman's Back

Has many aches and pains caused by weaknesses and falling, or other displacement, of the pelvic organs. Other symptoms of female weakness are frequent headache, dizziness, imaginary specks or dark spots floating before the eyes, gnawing sensation in stomach, dragging or bearing down in lower abdominal or pelvic region, disagreeable drains from pelvic organs, faint spells with general weakness.

If any considerable number of the above symptoms are present there is no remedy that will give quicker relief or a more permanent cure than Dr. Pierce's Favorite Prescription. It has a record of over forty years of cures. It is the most potent invigorating tonic and strengthening nervine known to medical science. It is made of the glyceric extracts of native medicinal roots found in our forests and contains not a drop of alcohol or harmful, or habit-forming drugs. Its ingredients are all printed on the bottle-wrapper and attested under oath as correct.

Every ingredient entering into "Favorite Prescription" has the written endorsement of the most eminent medical writers of all the several schools of practice—more valuable than any amount of non-professional testimonials—though the latter are not lacking, having been contributed voluntarily by grateful patients in numbers to exceed the endorsements given to any other medicine extant for the cure of woman's ills.

You cannot afford to accept any medicine of unknown composition as a substitute for this well proven remedy OF KNOWN COMPOSITION, even though the dealer may make a little more profit thereby. *Your* interest in regaining health is paramount to any selfish interest *of his* and it is an insult to your intelligence for him to try to palm off upon you a substitute. You know what you want and it is his business to supply the article called for.

Dr. Pierce's Pleasant Pellets are the original "Little Liver Pills" first put up by old Dr. Pierce over forty years ago, much imitated but never equaled. Little sugar-coated granules—easy to take as candy.

Catarrh

To prove unquestionably, and beyond any doubt, that Catarrh of the nose and throat can be cured, I am furnishing patients through druggists, small free Trial Boxes of Dr. Shoop's Catarrh Cure. I do this because I am so certain, that Dr. Shoop's Catarrh Cure will bring actual substantial help. Nothing certainly, is so convincing as a physical test of any article of real, genuine merit. But that article must possess true merit, else the test will condemn, rather than advance it. Dr. Shoop's Catarrh Cure is a snow white, healing antiseptic balm, put up in beautiful nickel capped glass jars at 50c. Such soothing agents as Oil Eucalyptus, Thymol, Menthol, etc., are incorporated into a velvety, cream like Petrolatum, imported by Dr. Shoop from Europe. If Catarrh of the nose and throat has extended to the stomach, then by all means also use internally, Dr. Shoop's Restorative. Stomach distress, a lack of general strength, bloating, belching, biliousness, bad taste, etc. surely call for Dr. Shoop's Restorative.

For uncomplicated catarrh only of the nose and throat nothing else, however, need be used but

Dr. Shoop's Catarrh Cure

BLACKMAIL, MURDER AND ABDUCTION.

One of the most serious problems that face the New York police department is the suppression of blackmail and extortion. The number of cases reported to the police annually in the last few years has increased with a rapidity out of all proportion to the increase in population.

The New York police records show that in 1901 seven persons were arrested for blackmail, 21 for extortion, 1 for attempted extortion and 1 for kidnapping. In 1906 18 persons were arrested for blackmail, 27 for extortion, 25 for attempted extortion and 27 for kidnapping. In the same period the arrests for homicide jumped from 402 to 847.

A high official of the United States Secret Service force suggested the other day an interesting explanation of the increase in the number of extortion cases. It is well known that criminal Italians, chiefly men who have been members of the notorious Mafia in Sicily or the Camorra in Naples, are behind many of the attempts that are made to extort money in New York.

The secret service official gave it as his opinion that part of the same gang of cutthroats who were responsible for the barrel murder in 1903 are behind most of the Black Hand attempts that are being made now.

The Black Hand alone has made necessary the establishment of a separate bureau of Italian detectives at police headquarters.

It is estimated that nine-tenths of all the cases that come before this bureau are connected in one way or another with the operations of the Black Hand.

There are 400,000 Italians in New York city, and this bureau of 30 men is practically all that the department has to depend on to keep it in touch with the secret doings in the several Italian colonies. It has been estimated that hundreds of thousands of dollars have been harvested by the Black Hand in the last five years, that at least 25 children have been kidnapped and that probably 50 murders can be charged up against it.

Remedy for Diarrhoea. Never Known to Fail.

"I want to say a few words for Chamberlain's Colic, Cholera and Diarrhoea Remedy. I have used this preparation in my family for the past five years and have recommended it to a number of people in York county and have never known it to fail to effect a cure in any instance. I feel that I can not saying too much for the best remedy of the kind in the world."—S. JEMISON, Spring Grove York county, Pa. This remedy is for sale by Gibson & Timberman and W. F. Creighton & Co.

THE CHURCH ARRAIGNED.

The church is in the hands of the capitalists and their friends, and consequently its influence is used for the capitalistic class against the laboring man, according to Prof. Shaller Mathews, dean of the University of Chicago Divinity School, who spoke at the Chautauqua Assembly yesterday.

The Chicago theologian scored the subsidizing of theological students while studying, claiming that inefficient ministers were the result. Commercialism was asserted to be the bane of the church, which has need for an ethical revival.

"The church is composed of the capitalistic class or sympathizers with the capitalistic class," said Dean Mathews. "It can influence very largely, therefore, the course of legislation. It is possible for the church to transform society in the process of legislation.

"On the other hand, it is not fair to throw it up against the church that it is not in touch with the laboring man. What interest has the laboring class in the church? The large proportion of our people have their own ethnic churches, and the Protestant churches cannot get a footing because of ethnic prejudice. Any church that is worthy of the name is interested in the laboring man.

"Too many theological seminaries are failing to send out trained leaders of the church. They are committed to a commercialized method of offering their students financial aid. They fail properly to educate men for leadership in an age like the present. Commercialism is the bane of the church. We need an ethical revival."

REVIEW SUSPENDS.

In consequence of the issuance of the recent syllabus proscribing criticism along certain lines the weekly review, "Demain," of Lyons, France, the organ of the liberal French Catholics, who have been opposing the "ultramontaines," announces its temporary suspension. "Amid thepresent confusion," it says, "the sincerest Catholic feels ideas are so obscured and misunderstood that it is necessary to await the restoration of calm before resuming work." "Demain" publishes the syllabus, accompanied by the following note: "To the extent to which the decree of the holy office is applied it will annihilate in the Catholic shool exegetic and moral criticism. We say 'to the extent to which it is applied' because, even at Rome, the necessity of abandoning certain of its prohibitions will be evidence if a dangerous impasse is not soon to be reached. To fetter the free exercise of criticism is to destroy the reason. It only remains to be remarked that the elaboration and publication of the decree coincides with the introduction in our public schools of the study of the critical history of religion and, especially, of the orgin of Christianity."

I'll stop your pain free. PICQUART INSULTED.

Gen. Picquart, minister of war, was insulted and afterward assaulted in the railroad station in Rochefort, France, yesterday evening, when returning from the dedication of a monument to Edouard Grimaux, who was prominent in securing a revision of the sentence of Capt. Dreyfus.

A workman suddenly emerged from a crowd that was applauding Gen. Picquart and spat in his face, and, at the same time, violently seized him by the arm and cried: "It is you, then, Picquart. Long live the Marechal!"

Gen. Picquart threw off his assailant before he had an opportunity to do him further harm.

Simultaneously with the outrage, the crowd, with shouts of anger at the indignity offered the war minister, surged forward and fell upon his assailant, who was trampled and in danger of being killed. He was finally rescued by the police and taken to jail, badly mauled and bruised.

The man was identified as Edouard Lecop, a member of the National Workmen's Federation, which supports the open-shop movement. He carried a large sum of money, but refused to explain his action. It is thought he is insane. Gen. Picquart was not hurt, and resumed his journey.

Neighbors Got Fooled.

"I was literally coughing myself to death, and had become too weak to leave my bed; and neighbors predicted that I would never leave it alive; but they got fooled, for thanks be to God, I was induced to try Dr. King's New Discovery. It took just four one dollar bottles to completely cure the cough and restore me to good sound health," writes Mrs. Eva Uncapher, of Grovertown, Stark Co., Ind. This King of cough and cold cures, and healer of throat and lungs, is guaranteed by E. S. Leadbeater & Sons, druggists. 50c and $1.00. Trial bottle free.

ALEXANDRIA GAZETTE AND VIRGINIA ADVERTISER

MONDAY EVENING, AUG. 12, 1907.

ANOTHER broadside has been poured into the Standard Oil Company by a report to President Roosevelt by Herbert Knox Smith, Commissioner of Corporations, Department of Commerce and Labor. The report is entitled "Discrimination in Prices." Abounding in invective, it arraigns the Standard Oil Company for selling its product abroad cheaper than at home, for maintaining the highest prices possible in those parts of the United States where it has a complete monopoly, and cutting prices relentlessly where it meets competition; and for using its vast freight traffic as a club to compel railroads to pay its high prices for lubricating oil. It is hinted that the half has not been told. Commissioner Smith's charges are simply unanswerable. He shows that while the Standard Oil Company was selling oil in the United States at an average price of 10.8 cents, it was selling it at 6.92 cents in Germany and 6.42 cents in England. The report also shows that the same oil was sold in Delaware at 7.7 cents a gallon, in Maryland and the District of Columbia at 9.2 cents, while the price in Colorado was put up to16.2 cents a gallon. Prices were high where the trust had a monopoly and low where it had competition. While oil was selling in Baltimore at 9.5 cents a gallon, it was selling in Richmond at 7.8 cents, in Washington at 8.2 cents and in New York at 10.5 cents. At the same time Cincinnati was getting oil at 6.4 cents, while Butte, Mont., had to pay 16.6 cents.

THE PEOPLE of Coventry, England, on Wednesday last witnessed another Lady Godiva pageantry in which a woman, evidently with a greater propensity for notoriety than modesty, rode through the city in commemoration of the original Lady Godiva's famous ride. Every available window and the sidewalks for the whole six miles of the route were thronged with Peeping Toms. The female who personated Lady Godiva rode a handsome white circus horse. She wore crimson tights, and a long auborn wig. Many of the clergy of Coventry left the city temporarily, but most of the people of the county and from eighty to a hundred thousand from the outside had a sight of the woman who was the central figure. Fiction has a firmer hold on the human race than have actual happenings. It would be difficult to find an intelligent English-speaking man or woman at present who believes that Lady Godiva ever rode through the streets of Coventry in the garb of mother Eve, yet, it seems that people prefer to believe certain legends which have no more basis than the story of the "Babes in the Woods," which often brings tears to the eyes of the young. This apocryphal yarn originated in a poem, as did that of Lady Godiva, Tennyson having been responsible for the latter. Lady Godiva is supposed to have lived nearly nine hundred years ago.

THE strike of telegraphers is assuming serious proportions. National Secretary Russell, of the Commercial Telegraphers' Union, announces that the strike will be universal throughout the United States and Canada within the next 24 hours. Demands have been formulated by the employes of the newspaper press associations giving their employers until 7:30 o'clock this evening to comply. President Small announced that if by Tuesday no way is found of settling the dispute he would call a general strike. In Baltimore, New York, Washington and other cities the sentiment is favorable to a strike, but decisive action has been deferred. Atlanta, Ga., Little Rock, Ark., and Texarkana, Ark., have been added to the strike list.

SUCH important results have accrued from the government's coal-testing work, begun experimentally in St. Louis, that it has now been placed by Congress upon a practically permanent footing, with $250,000 a year provided for its maintenance—the entire plant being transferred temporarily to the Jamestown Exposition, in order that multitudes of people may have an opportunity to see it in operation. The object of the work is to determine the qualities of the coals derived from extensive deposits in various parts of the United States including the South.

From Washington.

[Correspondende of the Alexandria Gazette.]

Washington, Aug. 12.

It is learned that a decided hitch has occurred in the conclusion of the financial arangement between New York financiers and the Santo Domingan republic whereby the former were to advance $20,000,000 on bonds of the republic for the purpose of enabling it to meet its foreign debt. It is now anticipated that it will be three or four months before a satistactory agreement is reached.

Inquiry at the Department of Justice this afternoon elicited the official information that there will be a proceeding to compel E. H. Harriman to answer certain questions he refused to answer in the inquiry before the Interstate Commerce Commission last winter; also that no other action against him, or any particular proceeding against the Union Pacific Railroad is now under consideration by the department.

The Phillipine cruiser squadron, which is under orders to return to this country, sailed Saturday from Cavite, P. I., and was expected to arrive at Yokahama today. This disposes of the stories published several weeks ago that the naval authorities were afraid to let these ships touch at a Japanese port on their way home because of anti-American feeling there.

The Farmers' National Bank of Boyertown, Pa., which was declared insolvent and placed in the hands of a receiver on July 20, having complied with the conditions imposed by the Comptroller of the Currency, today reopened its doors for business.

A dispatch from the chief surgeon of the army in Cuba announces that there are ten cases of yellow fever among the American soldiers at Cienfuegos. They were diagnosed by a regular army surgeon.

United States Ambassador Leishmann, at Constantinople, in a cable to the State Department today regarding the disturbances on the Turkc-Persian border, says that the Americans in Urmiah are in no particular danger from the regular Turkish troops and he believes that the published reports of fighting, etc., have been much exaggerated and colored for political purposes.

Charged with Perjury.

Berlin, Aug. 12.—On the strength of a new statement made by Olga Molitor, daughter of the woman Carl Hau, the former Washington college professo, rwas convicted of killing, Hau's attorneys are suing Olga for perjury. Miss Molitor, who was with her mother when the latter was killed, stated that she saw the murderer and is convinced it was Hau. This directly contradicts her testimony in Hau's trial and is the basis of the alleged perjury.

Uable messages from Berlin last week stated that Olga Molitor had herself been accused of murdering her mother by Baron von Lindenau. The Baron was reported to have written letters to Olga saying he had been behind her at the time of the murder and saw her commit the crime, but offering to keep the secret if she would marry him. Lindenau, it developed, was also the author of several anonymous letters sent the prosecutor during Hau's trial saying Hau was not the guilty party.

New York Stock Market.

New York, N. Y., August 12.—Selling orders caused abrupt declines in the first few minutes ranging from 2 to 5 points in all parts of the room. On the low levels reached supporting orders were in evidence. This buying caused a vigorous rally before the end of the first hour. The most important brokers though said that many of the stocks sold were taken by bargain hunters and to be paid for in cash. After the first hour the market grew fairly firm, with the room traders selling on advances and buying on declines. There was no new development in any quarter.

The announcement that the Western Union telegraphers in this city had gone on a strike started a hurried selling movement and demoralized the entire market. Declines ranging from 1 to 8 points from the prices at 1 o'clock were sustained.

Hotel Destroyed by Fire.

Baltimore, Md., Aug. 12.—The Kirwood Hotel, a summer hostlery at Highfield, in the Blue Ridge mountains, was destroyed by fire last night. There were 25 or 30 guests in the place at the time, but these were aroused by two couples who were sitting on the veranda at the time, and all escaped in their night clothing. The building was 35 by 125 feet, was owned by Mrs. Henrietta Brown and was erected eighteen years ago.

NEGRO KILLED.

A fatal shooting took place at Lick Run, Botetout county, Saturday, between Grover Clemens, white, and Wheeler Smith, colored. Clemens has charge of the store and post-office at Lick Run and the negro, who had recently returned from West Virginia, went to the store and acted in an insolent manner. He was requested to leave and others in the store made an effort to get Smith to behave himself. This only served to anger the negro, and Clemens, seeing that he would have to resort to extreme measures, retired to the adjoining room and secured a pistol. He then commanded the negro to leave, but instead of obeying the command the negro pulled his pistol and shot at Clemens three times, one ball lodging in the fleshy part of a lower limb. By this time Clemens brought his weapon into play and shot the negro five times, every ball taking effect. Before medical aid could be obtained the negro died. Clemens is not seriously hurt and it is not likely there will be any arrests, and all witnesses say that Clemens acted in self-defense.

FOUR PERSONS DROWNED.

A fishing party of eleven Newarkers was out in Raritan Bay, opposite Port Monmouth, N. J., yesterday afternoon when an accident occurred, by which four of them lost their lives. The victims were Charles Guenther, captain of the naptha launch Savoy; Gustave Mozer, Charles Weber, and a man named Schiver. A slight leak in the boat had allowed water to enter, and the captain got out the pump. The false covering in the flooring was close to the fly wheel of the engine, and while the wheel was revolving the crank struck the pump with sufficient force to drive the lower end of it through the bottom of the boat. Water poured into the launch in such volume that the craft began to sink rapidly, resulting in the loss of life stated above.

Justus Sutliff, 19 years old, an assistant, who was acting as fireman Saturday night at the power plant of the Burlington county, N. J., Railroad Company, after the machinery had stopped at 1:30 o'clock, went to sleep in the three-foot belt which is attached to the dynamo. Starting up at 5 o'clock yesterday morning, Engineer Elbertson heard a noise resembling a groan, and he immediately shut down. He found that Sutliff had been drawn in between the belt and fly wheel. His whole body was crushed, resulting in instant death.

Frank Rockefeller, of Cleveland, O., in an interview in the New York World, uttered bitter words against his brother, John D. Rockefeller, head of the Standard Oil Company. He said their father is alive and is kept in hiding. Subsequently Mr. Rockefeller repudiated the interview.

News of the Day.

The yellow fever among the soldiers at Cienfuegos, Cuba, is spreading until there is a small epidemic.

James W. Gallman, former mayor of Jonesville, S. C., was Saturday found guilty of manslaughter and sentenced to 15 years imprisonment for killing Sims M. Gillman, a prominent farmer.

A poor English tutor anda Newport, R. I., society belle will wed August 29, when Miss Lucette Marguerite Hutton becomes the wife of Harold Ayde Pritchard, of Bristol, England. Miss Hutton is the daughter of a wealthy Baltimorean, who recently built a magnificent villa at Newport.

A car of nitroglycerin standing on the Michigan Central tracks at Essex, Ont., blew up and wrecked the town Saturday. Two men are dead, five probably fatally injured, almost every building in the town is shattered, and within a radius of 300 yards from the depot everything is in a state of total destruction.

"I simply forgot my orders; that's all." This was the excuse given by Conductor Oakley at Raleigh, N. C., Saturday before the coroner's jury investigating the head-on collision on the Southern Railway at Auburn, eight miles east of Raleigh, last Tuesday; which resulted in the loss of three lives.

Naval circles are agitated over a report that the British Admiralty is about to lay down the kell for a 30,000 ton giant battleship that will be 50 per cent. greater in tonnage than the redoubtable Dreadnought. It is said that American ship designers propose to start the construction of a 40,000-ton fighting machine.

The President has signed a new order creating the Tern Islands Bird Reservation. This is the eighth reservation for birds created by President Roosevelt. The Tern Islands reservation embraces all of the "mud lumps," so-called, in and near the mouths of the Mississippi river. These "mud lumps" are islets more or less temporary in character, and created chiefly by sedimentary deposits from the river.

The Sultan of Morocco, through Ben Sliman, his Foreign Minister, has transmitted to the French Consul at Fez an expression of the grief with which he learned of the assassination of the Europeans at Casablanca, saying that no one more than he "condemned the act which cost five French lives." The Sultan said he was ready to accord any satisfaction demanded, notably the dismissal of the Pasha of Casablanca and the punishment of the guilty persons.

After Miss Lucy Wild, aged 17, daughter of J. A. Wild, of the United States Internal Revenue Department, had been chloroformed Friday night in bed at her home at Asheville, N. C., an attempt was made to set her bed on fire and she was robbed of considerable jewelry, bnt no violence was attempted. The crime was not discovered until the family arose at the usual time next morning. Miss Wild was found chloroformed and the bedclothes burned and scorched in many places. Bloodhounds were sent out at an early hour that morning and a posse headed by Sherift Penfield has been scouring the country for miles around, but all efforts have been in vain.

Mrs. Adele Horwitz Stevens was married in Baltimore Saturday afternoon to Beverly Robinson, jr., the New York club man. Both contracting parties are Episcopalians, and Mr. Robinson being a divorced man, none of the ministers of that denomination would officiate. They were finally married by Rev. J. C. Sommerlette, of the Zion Reformed Church, and immediately left the city. Mrs. Robinson was Adele Horwitz prior to her marriage to her first husband and a leader in social society. Mr. Stevens committed suicide at his Long Island home in September, 1905, while Mr. Robinson was in the house, and it was he who informed the coroner. Mr. Robinson was recently divorced from his first wife, who was Madeline Wall.

OPERATOR MURDERED.

Morris F. Van Gosen, a Baltimore and Ohio Railroad telegrapher, for the past six years in charge of the signal tower near Hancock, Md., station, was murdered at 2:30 o'clock yesterday morning about 200 yards east of the station.

William Jones, a Baltimore and Ohio track hand, whose home is only a short distance east of where the crime was committed, was arrested and lodged in the county jail at Berkeley Springs, charged with causing the death of Van Gosen. The theory is that Van Gosen was mistaken by Jones for another man with whom Jones had quarreled a short time before, and that in the darkness Jones killed Van Gosen, thinking the operator was his alleged enemy. Jones declares he is innocent.

Desiring to attend a dance Saturday night, young Van Gosen secured a relief operator—Ford Bachtell, of Berkeley Springs—to take charge of the signal tower during his absence. After the dance had broken up Van Gosen and other young men of Hancock and vicinity returned to their homes. At 2:20 o'clock yesterday morning Van Gosen went to the signal tower to see if everything was in good shape. After conversing for about five minutes with Bachtell and several companions, including John Rankin and Edward Catlett, who were at the tower at the time, Van Gosen started down the railroad to go to the home of Julius Cordwell, where he boarded. A few minutes after he had left a shot was heard by a number of persons living in the neighborhood, but as everything was quiet after that no investigation was made.

It was not until 6 o'clock yesterday morning that the lifeless body of Van Gosen was found.

Van Gosen was in the habit of carrying considerable money about with him. Ninety-two dollars and a gold watch were found in his pockets, and as this was within a few dollars of the amount he was known to have had on his person that night, the theory of robbery has not been considered by the officers at work on the case.

Bather Catches Shark.

Virginia Beach, Va., August 12.—The prowess of Fletcher Davis, an athletic young man from Oklahoma City, is a subject of much wonderment among summer resorters here. Davis was enjoying a swim when he saw a good-sized shark coming through the breakers some distance beyond the ropes. Instead of fleeing, Davis chased the shark, rounded him up and drove him within the ropes, causing a panic among the bathers. The swimmer then caught the shark by the tail and dragged him to the shore. The shark was found to weigh over 100 pounds.

The city of Roanoke Saturday night squared accounts with the Greek restaurant keepers and others who suffered at the hands of rioters, when a mob four weeks ago smashed all the restaurants in town. The clerk of the city, acting on instruction from the two branches of the city council, made out a check to James D. Johnson, attorney for the Greeks, for $967, the amount of the claims lodged by the restaurant keepers for actual damages done their property. No claims was made for business lost nor for the humiliation suffered by the Greeks.

The epidemic of burglaries in Richmond is increasing to an alarming degree. The city seems to be completely overrun with second-story men. A number of new cases are reported each day. The arrest and conviction of one or two seems to have little if any effect on the multiplicity of small crimes. Thousands of dollars worth of jewelry and household valuables have been lifted within the past several weeks. It is believed that the recent closing out of the dives and dens at Pine Beach and the placing of that resort under adequate police protection had the effect of driving the crooks, which had infested that place, to Richmond, where they are reaping a rich harvest from their operations.

TROUBLE IN ONANCOCK.

There was trouble in Onancock, Va., last Friday, superinduced by the attempt of John M. Fosque, a liveryman, to collect from Sylvanus Conquest, colored, a clerk in the store of Samuel L. Burton, also colored, the amount due for the hire of a team. When Fosque went to the store and demanded the money, Conquest refused to pay, and he and Burton cursed Fosque.

Fosque left the store and put the matter in the hands of Constable Tankard Kellam, who afterward went to Burton's store. Conquest was impudent to Kellam, who called upon Burton to help arrest him. Burton refused with curses. Mr. Kellam had to use brass knuckles to arrest Conquest, who was tried by the town authorities that night and fined.

On Saturday night the negroes planned a riot. J. D. Uzzle, a schoolteacher, editor of the Peninsula Times and secretary and treasurer of the Negro Fair Association, without provocation began to shoot in front of R. L. Shield & Co.'s store.

A ball severely wounded Garland Belote, who was coming out of the store. About the same time at the east end of the town, near Burton's store and Uzzle's printing office, a crowd of negroes had met to fire upon Mr. Fosque if he should drive a hack to the station.

They sent a negro, John Topping, to see whether the vichicle was driven by a white man or by a negro. At his reply that the driver was a white man the negroes opened fire, fatally injuring Topping, but by a miracle, six men and one woman who were in the hack escaped unhurt. There trunks and dress-suit cases were riddled with bullets. This so incensed the citizens that they began to gather, heavily armed.

The crowd went to look for Burton and Uzzle, but they could not be found. For an hour they kept up a heavy firing of guns and pistols, and then as the crowd seemed willing to disperse the mayor, constable, and sergeant went to their homes.

A thoroughly aroused mass of men from miles around began again to shoot, and the store and printing office were burned. At daylight the firing ceased, except from the guards who remained on duty throughout the town for several hours.

"Dr." Bowen, a black agitator, was also ordered out of town. Uzzle and Burton are still at large, and threats of lynching if they are caught have been heard.

Arms to be supplied by the Governor of Virginia were talked of at a citizens' meeting. The residents also asked for an injunction to prevent the negroes from holding their agricultural fair at Tasley Tuesday.

Governor Swanson, accompanied by Adjutant-General Anderson, left Richmond for Onancock last night, after receipt of a telegram from the mayor of that place asking that men, arms and ammunition be sent immediately, as more trouble was feared. From Newport News to Old Point the Chesapeake and Ohio ran a special train for the governor and the adjutant-general, and they sailed about 1 o'clock. Late reports from Onancock indicate that no apprehension of other trouble is felt.

Today's Telegraphic News.

The Telegraphers' Strike.

Chicago, Aug. 12.—President Samuel Gompers, of the American Federation of Labor, says the entire federation with its 2,500,000 members and millions of dollars of funds is behind the operators and will aid them to win a victory in the strike of telegraphers which has been precipitated. "As to the merits of the operators' strike I know nothing," said Gompers, "but the action has had the sanction of their executive committee and national officers, and that removes from the scope of the inquiry any investigation into its merits. We assume that an affiliated organization which has legalized a strike has just grievances and, adhering to labor union principles, we are determined to give the operators our full support."

President Gompers, of the American Federation of Labor, who arrived from Des Moines, will confer with Secretary Easley, of the National Civic Federation; United States Labor Commissioner Neill and President Small, of Commercial Telegraphers, Thursday morning.

The operators declare they do not wish arbitration of any sort and will end the strike only when the companies grant their demands.

There is said to be no immediate danger of railroad operators being involved.

Though moderation has not been warmly advocated by the striking operators, who urgently demanded that leased wire and broker operators "walk out first and then present demands," the action of New York, Boston and other eastern cities in preferring to await the decision of a conference of leaders has its effect here, and there may be no further spread of the strike until after Thursday.

Officers of the local union have received word from the Chicago Federation of Labor to the effect that the organization is entirely in sympathy with the strike and promising financial as well as moral support.

The minimum demand for salaries made by the brokerage and leased wire operators today is $30 for a week of six days.

Western Union and Postal managers in Chicago, Kansas City, Milwaukee, St. Louis and Omaha have notified operators who remain in the service of the company during the strike that they will be granted double pay and free meals and lodging.

Superintendent Capen of the Postal Telegraph Company says: "We are handling all the business presented to us and will be in better shape still in two days. The only trouble we now have is with the outside operators who sympathize with the union and yet go on accepting pay from the company and do what they can to hinder the dispatch of business."

"Not one of our offices in the entire country is completly tied up," says Superintendent T. P. Cook, of the Western Union. "The public can do without a large share of the telegraph business it has been accustomed to use because it was cheap. We will be able to handle emergency messages all right."

Secretary Russell of the telegraphers' union says: "Our forces are more intact today than they ever were. We have the support of two million and a quarter members of the Federation of Labor and the backing of forty-five thousand members of the order of railway telegraphers. The eyes of the world are on Chicago and in my belief this will be a crisis in the history of organized labor. We are in a position to hold out for a day or for a year."

Chicago, Aug. 12.—Chicago is isolated telegraphically. Supt. Cook of the local Western Union offices, admitted as much to the United Press shortly before noon.

"The strikers have put Chicago off the map," he said. "We have men to work, but cannot keep a wire more than two minutes. I have reason to believe that the railroad telegraphers have received secret orders to put Chicago out of business They are doing it. As soon as a Chicago message in heard going over the wire outcomes a plug and we are done."

Conditions are the game with the postal company.

Chicago, Aug. 12.—General Secretary Russell has just issued a call to all locals to hold meetings immediately prepartory to a general strike if the companies do not grant the full demand without further delay. He is now preparing the demands.

Chicago, Aug. 12.—Gen Secretary Russell at noon issued a call to all operators of local unions to meet immediately preparatory to arranging for a general strike. He also issued an order directing the men to stand firm.

At both the Western Union and Postal Telegraph offices messages are being refused except subject to indefinite delay.

The strike was precipitated in the Western Union office by the company's expulsion from the building of three men discharged Saturday for refusing to receive messages from Chicago strike breakers.

Chicago, Aug. 12.—Samuel Gompers, President of the American Federation of Labor, favors arbitration as a means of ending the telegraphers' strike. Shortly after arriving in Chicago he held a long conference with former United States Senator William E. Mason. Gompers declares he did not come to Chicago for the purpose of acting in the interests of the operators, but that he will do all in his power to bring about a settlement.

New York, Aug. 12—The union men in the general offices of the Western Union here walked out at 1:10 o'clock today.

Nine hundred men left their keys in the Western Union buildings. The company's officials tried even to stop the elevators in the effort to prevent the the operators from quitting the building. The strike followed an effort to compel the men to receive messages from strike breakers in the Chicago office.

A report was current that the operators at the Cotton Exchange have also gone out.

The men quit at the signal of a whistle blown by a union official on each of the three floors used as operating rooms in the buildings.

New York, Aug. 12.—One hundred men have gone out at the New York general offices of the Postal Telegraph Company.

New York, Aug.—"We will have our full force at work by 5:30 o'clock," said Superintendent Brooks of the eastern district of the Western Union this afternoon. "About 200 men walked out. Two hundred and fifty are still at work. We are doing business but are hampered."

New York, Aug. 12.—The Postal Telegraph Company's entire day force struck this afternoon.

Denver, Col., Aug. 12.—All Postal operators here have struck.

Columbus, O., Aug. 12.—All the union operators in the Columbus offices of the Postal Telegraph Company struck at 10:30 this morning in sympathy with the Western Union operators. Messenger boys in both offices are also striking

Augusta, Ga., Aug. 12.—The Western Union operators here joined the strike at 11:30 today. The Postal operators are all out.

Kansas City, Mo., Aug. 12.—The union operators here today are calling out all men who are working on wires leased from the Western Union, upon orders from President Small through Secretary Russell. They say that all leased wire operators will be out by night.

Oyster Bay, N. Y., Aug. 12.—The President is maintaining a rigid hands-off policy in regard to the telegraphers' strike. According to Secretary Loeb, the executive has neither received nor sent to Labor Commissioner Neill any communication regarding the strike. The efforts Mr. Neill is making to bring about a settlement are of his own initiative. Mr. Loeb said today that under no condition or circumstances would the President make any comment upon the situation.

Collision and Loss of Life.

New York, Aug. 12.—Four lives were lost and 200 persons thrown from their berths into a panic by a collision early today off Bridgeport, Conn., between the sound steamer Tennessee of the Neptune line and the schooner Rockland.

The Tennessee, bringing many Sunday pleasure seekers back to New York from Boston and vicinity, was steaming at half speed through a dense fog when the schooner, Rockland, lumber laden, loomed up dead ahead also bound for New York.

The vessels were so close that a crash was inevitable. The schooner sank instantly. The captain was picked up by the New Bedford liner Maine, but the four members of his crew drowned.

Parts of the Tennessee's rail were torn away, the steering gear was disabled, and for a time it was believed that the steamship, too, would sink.

The passengers rushed on deck in their night clothes Despite the officers' efforts to restore order, the wildest terror prevailed.

The Maine ran alongside and took the crowd aboard. Many women and children were among the passengers, and great difficulty was experienced in preventing several of them from casting themselves overboard.

The Maine arrived here with the Tennessee's boat load today. The Tennessee with its crew still aboard, anchored near the scene of the collision, and when signaled by the Hartford liner Providence, an hour later, replied that it needed no assistance.

It has been learned that the schooner was the three-master M. Myromus. It was completely cut in two, and the captain and one of his sailors were the only persons saved, four men being drowned. Plunging from the upper deck of the ship the captain carried a life preserver to the men struggling in the water. Cross refused $100 purse raised for him by the passengers of the Maine and Tennessee, declaring he had only done a man-of-wars man's duty. One report has it that five men from the Myronus lost their lives.

Tennessee passengers landed here by the Maine make the serious charge that there were no life preservers available on the former craft. They add that the crew showed no discipline and greatly hampered their officers in efforts to save women and children.

Hudson, on a farm near here, she found the dead bodies of her parents, both of whom had been shot. The home had been robbed of $2,000 which they had received yesterday to pay for their little farm. There was no evidence of a struggle and the old people had evidently been slain as they slept.

Miss Whaley in a Sanitarium.

New York, Aug. 12.—Destitute and ill, Floretta Whaley, the seventeen-year-old Hempstead heiress, who eloped with Rev. J. Knode Cooke, pastor of August Belmont's fashionable church, is reported to be in a sanitarium in Canada. Cooke is said to have deserted the girl and she is on the verge of insanity. Miss Whaley is a nervous wreck. She is reported to have begun raving when she realized Cooke had really left her and began to appreciate the wrong he had done her. She was taken to the sanitarium. There in her ravings she told enough of the story to cause the authorities to send word to her grandmother, Mrs. Hezekiak Whaley. For several weeks it is understood the latter has been sending remittances for the girl's care. She has also offered to take Floretta back when she can return home. The girl is heiress to a large fortune which will be hers when she becomes of age. Her elopement with Cooke, who deserted a wife as well as his pulpit for the young heiress, was one of the greatest sensations Hempstead has ever known.

Holy War in Morocco.

Tangier, Aug. 12.—Twenty thousand additional soldiers will be needed in Morocco to end the holy war now raging throughout the country.

This is the estimate made on reports received here today. Unless heavy reinforcements are speedily forwarded from France and Spain the Moors may get beyond all control.

Commander of the forces at Casablanca admits his inability to quell the rebellious natives with his present force. In the last few days the Moors have been joined by thousands of tribesmen from the interior, giving them a force which can almost pen the foreign soldiers into Casablanca. There is little danger of the city falling but soldiers cannot be spared to go to other threatened towns.

Attacks on Casablanca continue every day. While hundreds fall in each assault there are thousands apparently ready to take their places. Today the general situation is even more critical than it was last week.

YOUTH DROWNED.

John M., the 16-year-old son of Mr. John H. Coleman, a well-known engineer on the Southern Railway, was drowned in what is known as the Dyke, on the electric railway, a short distance south of this city, between 3 and 4 o'clock yesterday afternoon.

The unfortunate youth had gone to the Dyke during the early part of the day with Willie Hinken, Elmer McIntosh, Edward Evard and James Cook, boys about his age, and in the afternoon the party entered a batteau and amused themselves in rowing, and later divested themselves of their clothing for the purpose of enjoying a swim. Young Coleman, not being an expert swimmer, did not venture away from the boat, but was lowering himself in the water while holding on to the batteau. He eventually pulled himself into the boat, and while sitting on its side lost his balance and fell into the water, which is deep at that point when the tide is high. His companions swan quickly to his assistance, and as he came up he caught Evard by the throat with both hands. Realizing that both would drown, Hinken broke Coleman's hold on Evard, and between the two they got him to the side of the boat and placed his hands on the gunwale, telling him to hold on until they could climb in and draw him after them but Coleman had in the meantime become panic-stricken, and as the boat careened with the weight of the other boys he lost his hold and sank. His companions dived for him and made every effort to bring him up, but they were unable to locate him.

Messrs. Frank Hamilton and William Wilkinson, of this city, who were in the vicinity at the time, upon learning of the drowning, repaired to the spot and endeavored to recover the body, but their efforts were fruitless. A strong tide was running in, and in the hope of catching the body a fishing seine was stretched across the narrowest point of the dyke, a short distance from the point at which the drowning occurred.

News of the drowning soon reached this city, and the father of the unfortunate youth and some of his friends went to the Dyke and further efforts were made to recover the body, but it was nearly 5:30 o'clock this morning when it was found.

Young Coleman was employed as a clerk in the shoe store of John A. Marshall & Bro., and was popular with all who knew him.

Justice Triplett, of Fairfax county, this morning viewed the body of young Coleman, and after hearing the statements of his companions, which were substantially as given above, deemed an inquest unnecessary. The remains were then conveyed to Mr. B. Wheatley's undertaking establishment in this city, where they were prepared for burial, and later taken to the home of his parents, on King street, between Henry and Fayette.

THE WRIGHT CASE.

Governor Swanson on Saturday postponed consideration of the fate of Joseph Thomas, alias Wright, the negro convicted of attempted criminal assault on Mrs. Forrest Gooding in Luna Park early last fall. The Governor was in conference with Attorney James E. Clements counsel for the prisoner on Saturday.

Judge Barley today received a letter from Governor Swanson requesting him to secure the record in the Wright case and a review of the testimony during the trial, etc., and forward it to him during the next ten days, as the man's respite expires on the 30th of the month. To comply with Governor Swanson's request would have taken Judge Barley considerable time, and as he received the letter just as he was about to leave the city on his vacation he immediately wrote to the Governor asking him to grant a further respite to Wright of thirty days in order that he might comply with his request. Mr. J. E. Clements, of the county, counsel for Wright, was in the city today and held a conference with Judge Barley concerning the fate of the prisoner. The judge informed Mr. Clements of the request he had made for a further respite for Wright.

THE ARK.

Governor Warfield, of Maryland, has written Governor Swanson, of Virginia, a letter in which he promises the Virginia executive his hearty assistance and co-operation in the effort of the Virginia authorities to annihilate the notorious gambling ark in the Potomac river. The Maryland Governor had detectives watching the ark for several Sundays. It is understood to be the purpose of the operators of the ark to resume operations shortly. In that event every effort will be made to capture the gang and secure sufficient evidence on which to base a conviction.

Commonwealth's Attorney S. G. Brent, of this city, says the two States will vie with each other in efforts to break up the establishment, should the proprietors attempt to resume operations, which is not probable.

CHARTERS.

A charter has been granted to the Dime Savings Bank of Washington, incorporated, at Alexandria, M. D. Rosenberg, president; William Montgomery, secretary; J. B. Harrell, first vice president, all of Washington. Capital stock: Maximum, $50,000; minimum, $25,000. Objects and purposes, savings bank.

ELKS' EXCURSION.

Tickets for a complimentary excursion to Marshall Hall by Alexandria Lodge, No. 758, B. P. O. Elks, on Thursday, August 25th, are now in the hands of the members for distribution.

The weather yesterday was at times sultry and threatening, and there was but little animation on the streets. There was a perceptible decrease in the number of church attendants, many people being out of the city at this season.

EARLY-MORNING EXECUTIONS.

Fifteen members of the canine family suffered the extreme penalty of the law in the jail yard of this city at an early hour this morning. The horrifying scenes incident to the execution were witnessed only by the jail attaches and two surviving members of the family of the recently deceased. These few canines, though greatly shocked and suffering nervous strain by reason of the execution of their relatives, appeared happy over the thoughts of a prospective pardon. It is alleged that a petition is being circulated to secure a pardon for them on account of their extreme youth.

The condemned wretches spent a quiet day yesterday utterly oblivious of the impending cessation of existence for them. There were a few callers at the jail but the prisoners were peculiarly non-communicative and neither affirmed nor denied their guilt. All during their imprisonment they failed to express any religious preference.

At an early hour this morning the victims were aroused after a sound sleep lasting all night and partook of a hearty breakfast of cornbread and bun scraps. Warden Candler then read the death warrant to the unhappy crowd and at 7 a. m. the march to the end came. Tied in pairs they were led before the executioner, Officer Joshua Sherwood, who with a baseball bat proceeded to swat them into eternity. Not one of the poor fellows uttered a word upon the scaffold. The bodies were taken in charge by Undertaker Tom Carter and buried without ceremony on the city dump.

The crime for which this family of youths gave up their life was one of the most vicious in local history—that of being just a plain cur dog. Intense feeling at the time gave rise to many alarming rumors, but the prompt work of our detective force soon brought the culprits to the bar of justice. Detectives "Nep" Penn, Jim Lucas and Frank Wilkins, ably assisted by our police force, deserves great credit for their efficiency in this line of work.

It is alleged that other important arrests will be made in the near future, as soon as the dog-gone patrol wagon becomes convalescent.

Raymond, the infant son of Mr. Randolph T. Hardin, died yesterday evening at his parents home, on north Henry street. The funeral took place this evening, the services being conducted by Rev. Dr. S. A. Wallis.

KNIGHTS OF COLUMBUS.

A large number of Knights of Columbus, many of them accompanied by ladies, visited this city yesterday on their way home from the annual convention of that order, which was held at Norfolk recently. They were met by a committee representing Fitzgerald Council, Knights of Columbus, of this city, and after being shown the points of interest in this city, were entertained at supper at the New Hotel Rammel. The visitors later left for Washington. Among the visiting Knights was Mr. Fielding J. Lewis, territorial deputy of the Knights of Columbus, of Oklahoma. Mr. Lewis is an old student of St. John's Academy, and ex-Mayor of McAllister, I. T. He was accompanied by his family and a party of friends. Afterward he left for a visit to his old home in Prince George county.

CORPORATION COURT.

[Judge L. C. Barley presiding.]

The August term of the Corporation Court was opened today, and, after the transaction of some routine business, was adjourned for the term.

A meeting was held at Accotink yesterday afternoon for the purpose of organizing a tent of Rechabites at that place. Delegates of the order from this city and Washington were present. It is said that a tent will be organized in the near future.

THE JUDGESHIP.

Reports are in circulation that a change in the circuit judgeship matter has taken place; that several supporters of Mr. J. M. Johnson, who has been most favorably mentioned for the position, have transferred their support to Mr. J. B. T. Thornton, of Prince William county, and that some who had not supported Mr. Johnson have now come out strongly for him. A friend of Mr. Johnson, when asked today about the matter, said he knew of none who had deserted Mr. Johnson and that the report was either a trick or was started in the interest of another candidate. The report that Governor Swanson had stated that he would not appoint Mr. Johnson to the position of judge of this circuit is positively denied by the Governor himself.

REARRESTED.

William Webster, a Washingtonian, who was arrested last Friday night charged with assaulting James Self in a saloon in the northeastern section of the city, and who forfeited his collateral by failing to appear in the Police Court next morning, was rearrested yesterday, his collateral being deemed insufficient for the offense. Life, Not Death.

There is much difference in the psychological effect of the two ideas "life" and "death." This was illustrated, says the writer of "Letters From a Surgeon," in the case of General Frank Bartlett, who was wounded on the Fredericksburg pike in 1864. General Bartlett was brought to the surgeon bleeding profusely from a wound in his head. He was unconscious and white as death. The surgeon called his name, but could not rouse him. Passing his finger into the wound, he found the ball had not penetrated the bone, but had simply cut an artery in the scalp. This the surgeon bound with a ligature. He laid the general on the ground and completed dressing the wound.

"No harm done, old boy!" he shouted. "This is only a flesh wound. You will be all right when I take a stitch or two."

The good news seemed to bring General Bartlett to consciousness. He rallied completely.

"I thought I was done for," he said. "Well, if I'm all right, here goes."

Before the surgeon could stop him he was in the saddle and riding at the best gait of his horse back to the front again.

The Ways of the Moonshiner.

The ways of the moonshiner are pretty much the same everywhere. A suitable location consists of a secluded spot with water in abundance. It is important, should he ever be called upon to defend a case in court, for the question of the ownership of the land upon which the still is located, to be involved in doubt; hence the moonshiner gets as near the line of his own land or the land he controls as possible. The stills are primitive affairs and are often made complete in the neighborhood in which they are operated. With two or three square yards of sheet copper the still maker requires but a few hours to make the "b'iler." Home-made hogsheads are usually used as fermenters, and the only thing that the illicit distiller has to send "off yander arter" is the worm. Being difficult to secure, the moonshiner prizes his "worm" highly, and that part of the distillery is usually taken away when the operator leaves.—David A. Gates in Metropolitan Magazine.

Origin of "Bluestockings."

Burke, apropos of "Evelina," paid Fanny Burney this high compliment: "We have had an age for statesmen, an age for heroes, an age for poets, an age for artists, but this"—with a gallant bow to Fanny—"is the age for women." The name "bluestockings," given to these distinguished women, arose, according to Fanny Burney in her "Memoirs of Her Father," from an apology made by Mr. Stillingfleet in declining an invitation of Mrs. Vesey's to a literary meeting at her house. "I am not properly dressed for such a party," he pleaded. "Pho, pho," she cried, taking him and his dress all in at a glance, "don't mind dress! Come in your blue stockings." This he did, and "those words ever after were fixed in playful stigma upon Mrs. Vesey's associations."—T. P.'s London Weekly.

What We Stand On.

The density of the earth as a whole has been estimated, with close agreement among the scientists who have made the determination by different methods, to be about 5.5, or five and a half times as heavy as an equivalent sphere of water. On the other hand, the average density of the materials forming the accessible parts of the earth's crust is between 2.5 and 3, so that the mean density of the whole globe is about twice that of its outer part. This indicates that the central part of the earth is composed of heavier materials and may even be metallic, which condition, says the Engineering and Mining Journal, would accord perfectly with the nebular hypothesis.

Nature and Broken Bones.

In the splicing of broken bones nature can give the best surgeon pointers. When a bone is broken the splintered ends are surrounded with cartilage until they are firmly held in position. Then gradually a layer of bone is placed between them and soldered together. All the physician has to do is to bring the two ends of the bones together so that the point will be smooth and even. Nature's little agents do the rest.—New York Tribune.

Rising from the Grave.

A prominent manufacturer, Wm. A. Fertwell, of Lucama, N. C., relates a most remarkable experience. He says: "After taking less than three bottles of Electric Bitters, I feel like one rising from the grave. My trouble is Bright's disease, in the Diabetes stage. I fully believe Electric Bitters will cure me permanently, for it has already stopped the liver and bladder complications which have troubled me for years." Guaranteed at E. S. Leadbeater & Sons, druggists. Price only 50c.

I will mail you free, to prove merit, samples of my Dr. Shoop's Restorative, and my Book on either Dyspepsia, The Heart, or The Kidneys. Trouble of the Stomach, Heart or Kidneys, are merely symptoms of a deeper ailment. Don't make the common error of treating symptoms only. Symptom treatment is treating the result of your ailment, and not the cause. Weak Stomach nerves—the inside nerves—means Stomach weakness, always. And the Heart, and Kidneys, as well, have their controlling or inside nerves. Weaken these nerves, and you inevitably have weak vital organs. Here is where Dr. Shoop's Restorative has made its fame. No other remedy even claims to treat the "inside nerves." Also for bloating, biliousness, bad breath or complexion, use Dr. Shoop's Restorative. Write me today for sample and free Book.
